Professional Summary

MCA student with knowledge of Python, SQL, Data Analysis, and Web Development. Hands-on experience through academic projects and programming practice, with strong problem-solving, software development, and communication skills. Experienced in teaching Computer Science to Classes XI and XII.

Technical Skills

Languages: Python, C, SQL

Web Technologies: HTML, JavaScript, CSS

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn

Database: DBMS, SQL

Tools: GitHub, Microsoft Office,

Soft Skills: Interpersonal Communication, Quick Learner, Public Speaking, Adaptable

Projects

Fake News Detection using Machine Learning

Academic Project

2023

- Developed a fake news detection system using Python and Scikit-learn to classify news articles as real or fake.
- Engineered a text processing pipeline utilizing TfidfVectorizer to clean text, filter stop words and extract key features from raw textual data.
- Trained and optimized a Passive Aggressive Classifier, achieving a model prediction accuracy of over 81% on test datasets.

WhatsApp Chat Analyzer

Personal Project

2024

- Developed a Python-based application to analyze exported WhatsApp conversations and extract meaningful insights from chat data.
- Processed and cleaned chat data using Pandas, extracting dates, times, users, and message content for analysis.
- Analyzed message frequency, most active users, daily/monthly activity, and commonly used words to identify conversation patterns.
- Created interactive data visualizations using Matplotlib and Seaborn to present user activity and messaging trends clearly.

Experience

Guest Teacher – Computer Science

October 2023-August 2025

- Taught Computer Science to Classes XI and XII, covering the prescribed JAC curriculum.
- Delivered lessons on programming concepts and core Computer Science topics.
- Conducted practical sessions, assignments, and strengthen students' problem-solving skills and logical thinking.
- Strengthened communication, presentation, and mentoring skills through regular interaction with students and academic activities.

Training

Sai Coding Solutions Private Limited

June 2023 – August 2023

Python Programming

Ranchi, Jharkhand

- Completed training in Python programming and software development fundamentals.
- Worked on coding exercises and mini-projects using Python.

Education

Kamla Nehru Institute of Technology (KNIT)

Sep 2025 – Present

Master of Computer Applications (MCA)

Sultanpur, Uttar Pradesh

YCGPA – 9.0

Annada College, Hazaribagh (VBU)

June 2020 – Sept 2023

Bachelor of Computer Applications (BCA)

Hazaribagh, Jharkhand

CGPA – 8.15 (Top 3 in class)

Certifications

Python from **HackerRank**

Data Analytics from **Forage**
